

ISH Hall 10.2 Stand D60

Dynamic integration with BACnet technology

Dortmund, January 24th, 2011 – To date, this is the largest BACnet joint booth at the ISH. From March 15th to 19th, 2011 in Frankfurt, the BACnet Interest Group Europe (BIG-EU) will introduce new operator workstations and the latest products of BACnet technology. 16 exhibitors will be presenting their latest developments. The main theme is: “BACnet® - Dynamically into the future. The standard that never sleeps”. Project managers, investors, building designers and system integrators will receive valuable insights into the viability of the standard. The choice for technology-independent integration opens the door to energy-efficient buildings. The location is Hall 10.2, D60.

Represented at ISH for the first time in 2007, the BIG-EU reported another increase in exhibitors in 2011. A total of 16 exhibitors will present themselves at the 100 square meter large stand. DIAL ELESTA, GFR, Hermos, ITENOS, Johnson Controls, MBS, Newron System, Novar Bereich Trend, Priva, Saia-Burgess, Sauter, Siemens, Vacon and Viconics are represented.

Whether for a quick overview of existing BACnet systems or components, or for detailed specifications – the largest BACnet booth in the history of ISH offers those interested a variety of information.

The main theme: "BACnet ® - Dynamically into the future. The standard that never sleeps" illustrates the process of continuous implementation of new features and capabilities. At the BACnet stand, visitors will be convinced of the continuous development of the BACnet standard.

About the BIG-EU

The BACnet Interest Group Europe e. V. (BIG-EU) promotes the application of the worldwide BACnet communication protocol ISO 16484-5 in European building automation and safety engineering. It was founded in 1998 by 18 companies dealing with building automation. Today it has 80 members from Austria, Belgium, Canada, Czech Republic, Denmark, England, Finland, France, Germany, Ireland, Italy, the Netherlands, Norway, Poland, Sweden, Switzerland and the USA. Goals of the BIG-EU include representing European interests in the development of BACnet standards and the exchange of information with the permanent BACnet committee SSPC 135 of ASHRAE and with the American BACnet Manufacturer Association (BMA). Additional goals include common marketing, qualification offers and the collective formulation of technical guidelines. For further information please visit www.big-eu.org.
