

Building Automation Conferences

Sept 26–27, 2019 Frankfurt Airport, Germany

Indoor Mobility and Cyber Security in the Building of the Future

Twin conferences at the Frankfurt Airport from 26–27 September 2019

Dortmund, March 11th, 2019. – Analysts in Europe predict investments in smart cities worldwide to hit an all time high. The international twin conferences on building automation will address the two particularly high-growth areas. From 26 to 27 September 2019, the Frankfurt Airport will be dedicated to the subjects of "BACnet® Indoor Mobility" and "Cyber Security" in the building of the future.

Urban multi-purpose buildings are being erected throughout Europe. The integration of elevators and escalators, intelligent personnel tracking, smart grids and fire protection will make building operations more efficient than ever before. The "Indoor Mobility" conference will show interoperable solutions that communicate with BACnet® (ISO 16484-5) independent of manufacturer.

The "Cyber Security" conference will take place at the same time. Hackers will provide their unique points of view regarding the identification of weak points in intelligent buildings and how to embed security aspects into networks. Building planners, builders, and operators can learn more out about government guidelines, manufacturer initiatives, secure systems and innovative IT protection.

More than 200 expected visitors will have the opportunity to explore the latest concepts and products in parallel sessions and a joint exhibition.

The twin conferences, organized by MarDirect, will be hosted by the BACnet Interest Group Europe (BIG-EU). More information at: www.indoor-mobility-conference.org // www.cyber-security-conference.org.

About the BIG-EU

The BACnet Interest Group Europe (BIG-EU) promotes the application of the global BACnet communication standard ISO 16484-5 in building automation and security technology in Europe. It was founded in 1998 by 18 building automation companies and currently has over 130 members from Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Norway, Poland, Spain, Sweden, Switzerland, Turkey, United Kingdom and the USA. The objectives of the BIG-EU are the perception of European interests in the development of the BACnet standard. There is also an exchange of information with the BACnet-responsible ASHRAE committee "SSPC 135" and the American BACnet community. The group also has a joint marketing policy and qualification offer and has jointly developed technical guidelines. Further information is available at www.big-eu.org.

About MarDirect

MarDirect is a marketing service provider for technical communication. An international team accelerates the exchange of information between suppliers and users. MarDirect produces internet platforms, social media posts, trade journals, films, conferences, trade fairs and media campaigns. Further information can be found at www.mardirect.de.
