Profile

The BACnet Journals are the trade magazines for building automation based on BACnet technology. Experts, practitioners and professionals show the way in applying and developing the BACnet standard – from building automation trends to devices and application projects; from qualification and trainings to testing and certification; from who is who in the BACnet community to useful information on events and publications.

Special attention is given to members and activities of the BACnet Interest Groups. The BACnet Journals bring BACnet into the global markets.

Columns

Product reports, reference projects, BACnet trends and highlights, standardization, testing and certification activities, news of BACnet Interest Groups, BACnet Insight, Interviews, member presentations, calendar of events, recent publications, training and qualification.

Readers, Target Groups

Architects, building operators, building technicians and mechanics, construction engineers, control engineers, consultants, developers, facility managers, maintenance managers, marketing managers, network engineers, planners, project managers, sales and distribution engineers, service engineers, software engineers, specifiers, system integrators.

Branches, Industries

Architecture, building solution industries, building services, construction and automation industries, consulting, building leasers, building owners, facility management, investors, maintenance and administration services, public building services, R&D, Real Estate services, users.
