BACnet Europe Journal 30 available

Interoperable building automation with the world market leader

Dortmund, March 11th, 2019. – The BACnet Europe Journal 30 focuses on the exhibitors of the BACnet joint stand at the ISH in Frankfurt. Throughout its 56 pages, numerous reference projects, new products, Insight reports, the Indian INBAC initiative as well as BACnet news on current developments, events, and personnel are presented. The newest edition is available as an e-paper at www.bacnetjournal.org.

The latest issue of the BACnet Europe Journal – featuring a preface by Dario Sala, member of the BIG-EU Advisory Board and Head of Strategy and Marketing EMEA at Honeywell – offers detailed articles on the integration of elevators and escalators via BACnet, BACnet reference projects such as the Marienurm in Frankfurt, the "Office One" building in Stuttgart or the Penn State University project in Pennsylvania, USA. In the Insight section, a feasibility study conducted by the University of Applied Sciences and Arts Northwestern Switzerland, dubbed BACnet/MQTT, is elaborated.

In addition, the Austrian Army illuminates the Digital Twins – Digitalization and BACnet as Added Value for Clients and System Integrators. "If digitization is to advance the industry, there needs to be an open discussion about available and necessary information. Manufacturers and integrators are required [...] to implement transparent solutions with BACnet," explains Dr. Rupert Fritzenwallner, Head of the Construction Department, Command Leadership Support & Cyber Defence.

The BACnet Europe Journal is the leading European magazine for building automation based on BACnet technology. Experts, practitioners, and professionals show the way to develop and apply the BACnet standard – from building automation trends to devices and application projects; from qualification and training, to testing and certification; from the who's who in the BACnet community to useful information on events and publications. Special attention is given to the members and activities of the BACnet Interest Group Europe (BIG-EU).

About the BIG-EU

The BACnet Interest Group Europe (BIG-EU) promotes the application of the global BACnet communication standard ISO 16484-5 in building automation and security technology in Europe. It was founded in 1998 by 18 building automation companies and currently has over 130 members from Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Norway, Poland, Spain, Sweden, Switzerland, Turkey, United Kingdom and the USA. The objectives of the BIG-EU are the perception of European interests in the development of the BACnet standard. There is also an exchange of information with the BACnet-responsible ASHRAE committee "SSPC 135" and the American BACnet community. The group also has a joint marketing policy and qualification offer and has jointly developed technical guidelines. Further information is available at www.big-eu.org.
